

**ANNOUNCEMENT FOR RESEARCH GRANTS
“YOUNG INVESTIGATOR PROGRAMME”
YEAR 2012
FONDAZIONE UMBERTO VERONESI – ROMA OFFICES**

Science progresses anywhere there is true exchange. Exchange of experience, know-how, procedures, solutions and results. For this reason, Fondazione Umberto Veronesi promotes a Culture of Science without boundaries, favouring professional training of the most deserving scholars from Italy and abroad.

AMOUNT AND DURATION

The Foundation offers:

- **N° 3 12-month long research grants**, for a global amount of 27,000.00 euro (global value of each grant), aimed at promoting the introduction of young students to clinical and translational research in excellent organisations, both in Italy and abroad.

RECIPIENTS:

The research grants are addressed to graduates in Medical Science, Biology, Pharmacy having clinical and/or post-degree research experience (speciality, doctorate or equivalent experience). Given the program's translational nature, degrees in Medical Science shall be preferred. Preference shall also be given to study programs in the general area of Neuroscience, Female Oncology, Degenerative Diseases of the Central and Peripheral Nervous System, and Autoimmune Diseases in Paediatric Age.

In particular, the research grants offered by the Foundation are addressed to Italian doctors and researchers resident in Latium. Selected candidates shall carry out a period of study and work in excellent organisations, also on an international level: a true opportunity for professional growth, study in depth and work with others.

ENROLMENT PROCEDURE

All candidates shall send the following documents via e-mail to borse.roma@fondazioneveronesi.it :

- Curriculum Vitae and list of publications;
- Research program (1 page);
- Two letters of recommendation;
- Letter of acceptance by hosting Institute.

All material must be sent no later than midnight of 15th October 2011.
